He then called a meeting of the various army corps to discuss the matter with the Minister of War. The papers affirm that the Emperor informed Bismarck that he must insist upon his remaining in office, and that he was desirous to retire to private life. Bismarck and Count Herbert Bischoffswerder, a member of the Emperor's staff, subsequently presided at a dinner to them in the presence of the Emperor and the Prince of Prussia. The Baptist clergymen of Boston have started a campaign against Masonry. The deep-water pastors have undertaken a big job.

SINCE Mayor Grant began his warfare upon overhead wires in New York more than 2500 poles and 14,500,000 feet of wire have come down.

A CORRESPONDENT belonging to the class of citizens who expect to come up for public favors writes a letter, which is published in this issue, calling attention to the difficulties encountered by those who run for office.

THE "trip-around-the-world" craze has taken possession of the East. A number of Philadelphians propose to circumnavigate the globe the coming summer, and there will be rivalry to see which will accomplish it the quickest.

A BILL introduced in the House by Mr. McKenna, providing for the enumeration of all Chinese in the United States by the census officials, with the view to furnishing each with certificates of residence, was passed yesterday without division.

THE New York detective force has always been pointed to as a model of efficiency, but the French detectives sent from Paris to capture Eyraud, the stranger, say the New York police force is badly organized and incapable of successfully tracking foreign criminals. Still, as Speaker Reed would say: This does not prove that such is the case.

MUCH interest is taken in this State in the question of sugar duties, which has been giving the Committee of Ways and Means considerable trouble. Mr. McKenna has shown the committee that there are several beet sugar factories in California, on which construction has been suspended, awaiting the action of the committee on the schedule. He has also shown that the adoption of a bounty would lead to the abandonment of any further effort to increase the production of sugar, because no person has any faith in the continuance of that system. The Kansas men take the same view. Notwithstanding this showing, the Republican members of the Ways and Means Committee have agreed to a reduction of duty equivalent to about fifty per cent. without bounty. While this will afford some relief to consumers, it will be a severe blow to American producers of beet and sorghum sugar, and will probably, for the time, put a stop to projects for the raising of sugar beets in Southern California.

THE long expected has at length happened—Bismarck has sent in his resignation to the Emperor and it has been accepted. The old, experienced statesman, who has served his country for so many years, was unable to adapt himself to the varying moods of the young, eccentric, ambitious and, it is said, sometimes bad-tempered monarch. The Emperor appears to entertain the opinion that he can be a sort of benevolent autocrat. Bismarck knows better. Pleasant words and patronizing condescension cannot relieve the grinding burden imposed upon them by the immense standing army which, under the present condition of European affairs, it is necessary to maintain. It is not at all improbable that, before many months have elapsed, William may be forced to call once more upon Bismarck for counsel.

SOME remarks have been made to the effect that any discussion of the merits of an aspirant for political office at this stage is "premature." Our view of the case—and we believe the correct view—is that it is for the interest of citizens that the character and availability of aspirants should be carefully and fully criticized, for a sufficient length of time to enable voters, especially delegates to a convention, to become thoroughly informed, so that there may be no danger of rushing through an undesirable man, with a hurrah, at the last moment. Objections which are heard to this course generally emanate from adherents of aspirants who cannot well stand a full and free discussion of their merits. If the character of an office-seeker is good, he can lose nothing by early and full discussion. If it is otherwise, the interest of the citizens demands that such discussion be had.

REPUBLICAN HARMONY AND REPUBLICAN SUCCESS.

In order that the Republicans may win in the coming political contest in this State three things, at least, are essential. First, good nominations; second, harmony in the ranks of the party; and, third, united effort and zealous work.

We assume—we know, in fact—that there are enough Republicans in California to elect our State and legislative tickets. The paramount requirement is that our vote be brought out. How can this be done? Clearly and only by first advancing sound principles for popular support; second, by nominating sound and popular men; and, third, by arousing the popular Republican enthusiasm and bringing out the full Republican strength, as near as may be.

These are the aims of all true Republicans having the highest interest of the party at heart. THE TIMES advocates a solid Republican phalanx, organized and embattled on correct fighting principles, with none but the common enemy to oppose. There need be no trouble about the party marshaling for the fray on this basis, provided only that correct methods and true party lines of action be adopted.

Those methods and these lines must be only such as can be approved by the great body and the best elements of the party, expressed in its local councils, and by the delegates in State convention assembled.

But, in order to have the State Convention truly reflect the popular Republican sentiment, its several delegates must be chosen by fair and popular methods.

For this reason, we deprecate all attempts, come from what quarter they may, to violate and vitiate the popular will by resorting to irregular and illegitimate methods to corral and capture delegates in the interest of any candidate. Such methods produce inharmonious and tend directly toward defeat, and we reprobate such tactics in the severest manner.

To be more specific, we have direct reference to current attempts practiced throughout the State, and especially in Southern California, to capture the delegates to the Republican State convention by illegitimate methods—by undue personal influences; by promises of official favors in the future, or of other valuable considerations, to be paid more or less directly in hand.

It is obvious that such methods are entirely unwarranted and grossly reprehensible, and to continue to pursue them is to hurl dissensions into the Republican ranks, the result of which, if not healed, means disaster.

Voters should be left free to elect suitable delegates uninfluenced by sinister and selfish motives, pressed upon them from the outside. Only thus can right results be produced. It is discreditable to any candidate to attempt to debauch the primaries, pollute the ballot-box, or violate the convention; and if any candidate dare attempt such practices he will be met by the stern reprobation of the Republican masses. It is too late in the day; too far along in the century for such methods to be employed in politics without producing that popular recoil and revolt which always and justly ends in disaster.

THE TIMES, sincerely desiring success on just principles, invokes the better sentiment of the Republican people, and it will not fail to do its duty in the effort to secure the highest and best expression of the popular Republican will. Nor will it fail to ceaseless to stifle the popular voice and secure their own selfish ends, instead of the good of the Commonwealth.

This, as we understand it, is doing service to the party as a whole. Nor will we fail to defend Republicans and the Republican party when assailed by those traffickers in office and patronage who would jeopardize its success for their own purposes.

Relying upon the good sense and patriotism of the Republican voters throughout the State, we only desire to see their will truly expressed in the local and State conventions. The result cannot be doubtful.

So far as Los Angeles county and Southern California are concerned, the result, on the first place especially, is, we believe, predestined. We have no thought that the Republican will can be foiled, or that the Republican effort can be defeated through the efforts of political agents stalked out over the country to compass personal ends. But due vigilance on the part of right-meaning Republicans is essential; and this we urge strongly.

MARKHAM IN THE NORTH.

In considering the availability of a gubernatorial candidate, other conditions must be considered than those which prevail in the case of aspirants for county offices. In the one case the field is the whole State, whereas, in the other, it is confined to the more or less narrow limits of the county within which the candidate resides, and in which, as a rule, he is well known.

THE INDIAN MURDERER.

Chang Jose on Trial for His Life—Story of the Crime.

A murder trial began in the United States District Court yesterday before Judge Ross. The defendant is a Yuma Indian, Chang Jose, who is accused of murdering an Indian girl named Epai in September last, on the reservation about a mile from Fort Yuma. Chang was accused jointly with an Indian named "Mike" in the commission of the crime. The latter committed suicide in the County Jail in this city a few months ago by hanging himself. The murder was a particularly atrocious one, and the evidence against the defendant is very strong.

Chang and Mike got some whisky and got drunk. Before drinking any, they persuaded two girls, one of them Epai, to go with them up the railroad. Epai drank some whisky, but the other girl went away, and they turned back and got away from the party.

Two days afterward Epai's father, Mat Quish, and her brother, found her dead body by a pond some distance from the Indian camp where they lived. Her neck was twisted, and there were evidences of a desperate struggle where she was found, the ground being torn up and the weeds broken in quite a large circle. Circumstances pointed so strongly to the Indians last seen with the murdered girl that they were seized and would have been put to death by the Indians if they had not been promptly arrested by the United States officials and brought to Los Angeles.

In the trial, under the prosecution was represented by United States District Attorney Cole and the defendant by George Dunlap, Esq., and some time was occupied in securing a jury.

Mat Quish, father of the murdered girl, was the first witness. "Mojo Bill" was the interpreter, and the examination was a curious one. The witness, a tall, taciturn-looking fellow, and not very bright, described the body of his daughter, and how he ascertained that Chang and Mike were the murderers. He trailed their tracks to the spot, and swore that he knew their tracks and those of the Indians around the pond where the body of his daughter was found.

He described the peculiarities of the tracks of each, and said that he knew that they had held of his daughter and dragged her along with them. He could tell that she was unwilling to go with them, and that she was crying and howling all the while.

He described the burial of his daughter. Her body was found about 10 o'clock in the morning, and brought to the house of the witness, who made and the body placed on it. Wood was piled around it, and the body was buried at 2 o'clock of the same day.

The brother of the murdered girl, also tall and very straight, with long, luxuriant hair, placed his hands around his shoulders and face, told substantially the same story of the finding of his sister, and before his evidence was completed court adjourned until this morning, when the trial will be resumed.

A New Species of Blackmail.

LOS ANGELES, March 18.—[To the Editor of THE TIMES.] I belong to the class of possible candidates for office, and in behalf of myself and of many who are in the same position, I desire to call your attention, and through you the attention of the public, to a new and peculiar species of blackmail which has been placed in the path of aspirants for public office. I refer to the lately-exposed scheme of an unsuccessful newspaper—the Tribune—of retrieving its failing fortunes by forcing its editors to contribute to its support.

As stated, I belong to this class, who are pushed and harassed to subscribe to stock in a newspaper which they do not want to have anything to do with. It is a new species of blackmail, and is a very serious matter, especially one which makes such frequent and loud boasts of party fealty, should perform its duty as a legitimate paper, without expecting money, except for legitimate advertising, and should not be expected to contribute to the support of a paper which is demoralizing and debasing in the highest degree, and works a great hardship on candidates for office, who have, as it is, more than sufficient legitimate expenses. There are the contributors to the Tribune, who are forced to contribute to the support of the Tribune, and the Tribune, in turn, is forced to contribute to the support of the Tribune.

ESCAPED BY ONE VOTE.

Further Light in Regard to the Boyce Trial.

The jurors who acted in the Boyce case have been very reticent about the manner in which they divided during the trial, and until yesterday that a little further light was let into the secrets of the jury-room. It cannot, of course, be stated as a positive fact, but a Times reporter yesterday heard of a very interesting episode which took place Sunday morning, and which came near resulting in a verdict of guilty, the defendants escaping that result by the kindness of Mr. Brand, refusing to vote.

The jurors had been voting and discussing during Sunday morning, and Mr. Brand had refused to vote or even discuss the case on Sunday. The members of the jury were very much tired in consequence, and they finally brought the matter to a head, took a ballot, which resulted in polling 11 votes for conviction. This was so near an agreement that the weary jurors all united in urging their reluctant fellow-member to cast his vote and decide the matter. He was deaf to their entreaties, however, and, opening his Bible, began to read aloud to himself. Arguments were all lost upon him, and H. H. Boyce escaped the penalty by one vote. It cannot be stated, as before said, absolutely that the episode is just as given, but there are strong grounds for believing that it is correct.

TELEGRAPHIC BRIEFS.

The Dakota Legislature adjourned yesterday. Rain fell yesterday at St. Helena, Marysville, Fresno and San Francisco. Several more arrests were made in New York yesterday in connection with the Sheriff's office scandal. The Armours have petitioned Congress for free tin on the ground that a duty will ruin the canned goods business. The World's Fair Committee completed consideration of the fair bill yesterday. The Chicago men had all their wishes gratified. At a meeting of the State Board of Forestry, yesterday, Ben Fehman of Alameda, John Clemens of San Francisco and George M. Coffey of Los Angeles were appointed special agents.

The Imported Eastern Iron Molders Reach San Francisco, but Many of Them Go Over to the Strikers.

By Telegram to The Times.

SACRAMENTO, March 18.—[By the Associated Press.] J. J. Lagele, a member of the Republican City Central Committee, this morning filed papers in a proceeding to contest the recent election of Mayor Constock. The contestant alleges on information and belief that Eugene J. Gregory received the highest number of votes, but that the City Trustees, on March 17th, canvassed the returns and declared W. D. Constock duly elected. The ground of contest of the right of Constock to hold and exercise the office of Trustee are based upon alleged misconduct in each of the 15 precincts, as follows:

It is alleged that the board of officers in every precinct counted and tallied ballots for W. D. Constock for the office of First Trustee upon which the name of Constock did not appear, and that the board failed, neglected and refused to count and tally ballots for Eugene J. Gregory upon which the name of said Gregory did appear. Constantly alleges that by reason of the misconduct of several boards of election, W. D. Constock has been unlawfully, fraudulently and unjustly deprived of his certificate of election as First Trustee of Sacramento, and for the same reason Eugene J. Gregory has been unlawfully, fraudulently and unjustly deprived of his certificate of election as First Trustee.

It is further alleged that Gregory received a higher and greater number of votes cast at the election than did Constock, and that Gregory is entitled to all rights, privileges and immunities of the office of First Trustee.

Judge Can Fleet, after reading the complaint, made an order that a special session of court be held on Monday, April 7th, at 10 a. m., to hear and determine the contested election, and the citation issue to the respondent as required.

STRIKERS' WIVES.

Many of the Eastern Molders Join the Ours.

LATHROP, March 18.—[By the Associated Press.] A special passenger train of three cars destined for San Francisco has just passed through it. It is supposed to contain the strikers for the Union Iron Works. A delegation of workers from San Francisco, which had been awaiting them, as the train changed its engine at the roundhouse and did not stop at the depot.

SAN FRANCISCO, March 18.—The iron molders brought from the East by the Union Iron Works to take the places of strikers arrived tonight in two divisions. The first of these, composed of 18 men, was approached on the Oakland board by a delegation of the strikers and they were persuaded to repudiate their contract with the Union Iron Works and join the ranks of the strikers.

The second squad, consisting of men for the Fulton and Rialson Iron Works, landed at the Fulton-street wharf and the third squad for the City Iron Works landed at the Second-street wharf. They were all placed inside the foundry building. The strikers slipped through the letters through the windows, appealing to them to abandon the bosses. The men objected to being imprisoned, and were liberated and taken to the homes of their families, who claimed to have persuaded six of them to join them. The molders left Philadelphia 29 in number, but 10 deserted along the road.

OFFICERS ON TRIAL.

Capt. Healy and Commander Coghlan Under Investigation.

SAN FRANCISCO, March 18.—[By the Associated Press.] The investigation of the charges of cruelty and misconduct against Capt. M. A. Healy of the revenue cutter Bear, which was postponed two weeks because of the absence of witnesses for the prosecution, was resumed today. Counsel for the prosecution stated that he would not press the charge of drunkenness, as he could not find a witness to substantiate it to his satisfaction. Several merchant sailors who were at Dunsalka last summer testified that they saw two sailors taken from the bark Estella to the Bear. Capt. Healy ordered the men tried up. The witnesses were of the opinion that Capt. Healy was intoxicated at the time.

VALLEJO, March 18.—The court-martial convened at Mare Island to try Commander J. B. Coghlan of the United States steamer Albatross for violation of the naval discipline in publicly criticizing the navy and naval officials completed its labors today by rendering a verdict in favor of the charges.

THE Los Angeles Electric Road to Be Operated Again.

SAN FRANCISCO, March 18.—[By the Associated Press.] A contract has been signed with the Sprague Electric Railway Company for replacement of the old electric road in Los Angeles.

Los Angeles parties are interested in the syndicate which proposes to operate the road again, but capitalists of Topeka, Kan., who own the electric railway system there, have recently purchased control.

The new equipment and methods are similar to those decided upon for 300 miles of electric railway system recently adopted for the cities of St. Paul and Minneapolis.

A WILD MAN.

His Peculiar Antics on a Railway Track.

BAGDAD, March 18.—[Special.] As Engineer Spencer was coming down the mountain, 12 miles west of here this evening, he saw a man in a nude state run across the track waving his arms frantically. Spencer stopped his engine and endeavored to catch him, but the man escaped into the mountains.

He is described as a man about six feet tall, with a long black beard, and very thin. No one is reported missing. A party will go to search for the wild man.

NEW YORK, March 18.—[By the Associated Press.] A well-dressed Chinaman hurried through Mott street from Chinatown yesterday afternoon across a horse-drawn car by his eyes. One of his countrymen noticed that his face was inflamed, and at once suspected that he was leper.

The story quickly spread among the Chinese that there was a leper in their colony. A searching party was organized, and all the Mongolians' haunts were visited, but no trace was found of the leper.

The Chinese dread leprosy as much as the Caucasian, and there was terror in Mott and Pell streets last night. It is supposed that the man came from the West, and vengeance was vowed against any one who should harbor him.

SEARCHING THE RUINS.

More Bodies Taken From the Wreck at Indianapolis.

INDIANAPOLIS (Ind.), March 18.—[By the Associated Press.] A great crowd surrounded the ruins of the Howa-McCull building this morning, and the work of exhuming the bodies of the dead and rescue the living, the voices of several of whom were audible in the ruins.

The body of Stormer was recovered this afternoon. Only Woodruff's body remains in the ruins.

The work of clearing away the wreck was continued throughout the day with renewed energy. The floors and roof lay one upon another with burning books scattered in between. At this morning the crushed and mangled remains of Tony Voltz were found and extricated. It was about 8 o'clock when a crowd of about 100 men gathered around the wreckage. Some one noticed a lead protruding from the debris. Quick work revealed his form in an almost standing position, leaning slightly, with one hand on the ground. It would appear that he had been struck by something and placed his hand there before the fatal blow came. The most horrible of all was the condition of Emy Stormer, whose dead body was taken out at 2:45 o'clock with one leg burned entirely off. He must have died a terrible agony, and there are no evidences that he was killed by falling bricks or timber. It seems that he died in agony while the fire was burning his leg. Woodruff's body was the only one who remains in the mass of ruins.

THE McALLA INQUIRY.

More Sailors Testify as to Cruel Treatment.

NEW YORK, March 18.—[By the Associated Press.] The investigation of the charges of cruelty against Commander McAlla was resumed this morning. Jeremiah Hay, fireman; Michael Murphy, a coal-heaver, and H. F. Hewey testified that Lieut. Mulligan put Shay in irons and tried him up because he did not toe the mark properly on the quarter deck.

F. W. Betzer, fireman, testified that Lieut. Mulligan treated him the same way, and Lieut. Ingersoll struck Seaman Fitzgerald and talked him down with a bayonet. Lieut. Mulligan testified that he could remember no such occurrences.

Michael Kearney, charged Lieut. Mulligan with having gagged him with a mast. Lieut. Mulligan admitted that he had no orders to do this.

Seaman Neal told about Lieut. Ingersoll threatening him with a bayonet, and afterward striking him down with his fist. Several other complaints were entered.

ANOTHER BROKEN LEVEE.

Arkansas Lowlands Overflowed—The Situation at New Orleans.

VICKSBURG (Miss.), March 18.—[By the Associated Press.] There was a serious break in the levee at Lima, Ark., today, and tonight it had widened to 300 feet. The levee at Offutt also broke this evening above Greenville. The water from this break will overflow all of the rich lands of the Deer Creek section back of Greenville. A large force of men has been put to work, and it is hoped to get the back closed. If it is not soon closed a large part of that country and the Yazoo delta will be inundated.

NEW ORLEANS, March 18.—The river situation in this immediate vicinity is not much changed, but the levees are being strengthened.

A dispatch from St. Joseph says the situation on the Kansas front district has been more favorable. The army, armed guards have been placed on the levee with instructions to shoot anybody approaching them at night.

NOT DEAD, BUT SHAMMING.

ALBANY (N. Y.), March 18.—A story is circulating this evening to the effect that Lester B. Faulkner, the wrecker of the Danville Bank, supposed to have died January 27th, is still living in Mexico. He availed himself of the death of his gardener to have the body buried as his own, and then quietly left. It is said the United States Government officers have become aware of the cheat, and at the present time of the court which convened today will proceed against Faulkner's bondsmen for the amount of their bonds.

MRS. FLACK A BAD WITNESS.

NEW YORK, March 18.—The wife of Sheriff Flack was a witness today in the case against her husband for conspiracy. She was hysterical under cross-examination, and begged the jury to believe her, saying that she had signed the petition for divorce from her husband, and charging as forgeries certain signatures handed to her by her husband.

The defense seeks to establish that she is and has been an imbecile.

A BURNING MINE.

MARQUETTE (Mich.), March 18.—The fire in the Norway mine is still raging. This morning the flames were streaming from the main shaft, threatening the pump-house, shaft-house, etc. Five miners caught in the skip narrowly escaped death. General Superintendent Kelly, Capt. Bond and a party entered the mine this morning. They were overcome by smoke and had a narrow escape.

A DYING POLITICIAN.

NEW YORK, March 18.—Word was received this evening that John J. O'Brien, until lately chief of the Bureau of Elections, was dying at Coney Island. He is suffering with a complication of diseases. O'Brien has been before the public for the last 15 years.

TRAIN STARTS.

George Francis Begins His Trip Around the World.

TACOMA (Wash.), March 18.—[By the Associated Press.] Shortly after 5 o'clock this morning George Francis left the Tacoma Hotel for the Ledger office to prepare for his start around the world. Precisely at 6 o'clock he entered a carriage and was rapidly driven to the steamer Olympian. Cannon were fired at the start, bells rang, and steam whistles blew on all sides. Four hundred people accompanied him to the steamer Abyssinian, which he will board while at anchor off Victoria. Train was the recipient of many presents from Tacoma people. He says he is prepared to buy a steamer in case connections fail. A band and orchestra were on the Olympian for the entertainment of the excursion. Train is in fine health and spirits, and is confident he can make the trip within 60 days. He starts at a disadvantage, as the Abyssinian is three days slower than the steamer Parthia, but he will make it up on the homeward trip by special train from New York to Tacoma.

TORIES DOWNED.

DEFEAT OF THE BRITISH MINISTRY IN THE COMMONS.

Chamberlain and a Few Conservatives Vote with the Opposition—The Issue a Local Scotch Question.

By Telegram to The Times.

LONDON, March 18.—[By Cable and Associated Press.] The government was defeated in the Commons this evening on a motion of Balfour regarding the claim of encroachments upon the public right of way in Scotland, and moving that the laws be reformed and the matter entrusted to county councils.

Chamberlain, a number of Unionists and a few Scotch Conservatives, supported the motion, which was adopted—110 to 97. The government has summoned Balfour to London.

Sansbury has summoned all the supporters of the government to meet at the Carlton Club, Thursday, on matters of importance.

FOREIGN FLASHES.

PARIS, March 18.—The statement of the new Ministry announcing the policy which it would follow was read in the Senate and Deputies today. The Chamber, by a vote of 318 to 78, expressed confidence in the government.

NEW YORK, March 18.—The Herald's Rome correspondent says he is authorized to announce that the Pope would consent to act as mediator in the general European disarmament.

RIO JANEIRO, March 18.—

THE NEW TARIFF.

California Industries to Be Protected.

Increase of the Duties on Wool, Fruits and Nuts.

Sweet Wines to Be Fortified Without Payment of Duty.

Other Washington Dispatches—An Omaha Editor's Argument for the Postal Telegraph—A Yosemite Bill.

By Telegraph to The Times.

WASHINGTON, March 18.—[By the Associated Press.] As a result of the tariff measure prepared by the Republican members of the House Committee on Ways and Means, duties are increased. Though many are lowered and slight additions are made to the existing free list, there is scarcely one of the industries of the Pacific Coast which is not the recipient of increased duty. Wool, fruits and nuts all come in for increase, and sugar alone for a decrease. An all-around increase is made in the fruit schedule. The duty on grapes, plums and prunes, which at present is 1 cent per pound, is made 2 cents; the duty on figs is made 2 1/2 cents; and the increase on oranges and lemons is from 30 to 60 cents a box, and there is about one-third increase in the duty on bulk. An increase of 1 cent is made in raisins, making the duty 2 1/2 cents per pound. The duty on almonds is 5 cents per pound unshelled, shelled 7 1/2 cents. Other nuts are given also an increased duty—filberts 3 cents a pound, peanuts unshelled 1 cent, shelled 1 1/2 cents. On cherry root, burned or roasted, the duty is made 7 cents; on chocolate, not confectionery, 3 cents a pound, and cocoa, prepared, or manufactured, the same.

While in a general way the wool schedule may be considered not completed, still the main points have been decided upon. The challenge of the so-called tariff reformers has been accepted, and instead of making free wool the present rates are retained, with, if anything, a slight increase. The rates can be tested, with little prospect of any change, as follows: On first-class duty will be 11 cents a pound on unwashed; double that, or 22 cents, on washed; and three times the unwashed duty, or 33 cents, on scoured wool. This shows a trifling increase, about one cent a pound, on unwashed, and a proportionate increase on the other grades. The third-class schedule is extended so as to include camel's hair, now on the free list. On this the duty will be 12 cents a pound. The third-class schedule is extended so as to include camel's hair, now on the free list. On this the duty will be 12 cents a pound. The third-class schedule is extended so as to include camel's hair, now on the free list. On this the duty will be 12 cents a pound.

Manufactured woolen goods show an increase also. This, however, is only made large enough to cover the increased cost of the duty paid by the manufacturer on raw material.

Two bills introduced in the House were added to the tariff bill. One of these imposes a duty on imported fruit juices compounded of alcohol of 25 per cent, on the alcohol contained in the preparation and an additional duty of 25 per cent. ad valorem.

The bill providing for the fortification of sweet wines free of tax was also added to the bill.

THE POSTAL TELEGRAPH.

An Omaha Editor's Argument in Its Behalf.

WASHINGTON, March 18.—[By the Associated Press.] Edward Rosewater, editor of the Omaha Bee and a practical telegrapher, argued before the House committee today in behalf of the postal telegraph. He said he came not to advocate any particular bill nor to antagonize any particular telegraph company. He said he was convinced the time had arrived for the Government to endeavor to secure control of the telegraph. He presented figures showing the expenses and profits on the wire, and said he thought a 10-cent rate for messages ought to be remunerative.

Mr. Rosewater advocated the proposition that the Government buy up all the telegraph lines; then advertise for proposals to have a private corporation operate a postal telegraph system under control of the Government. This would give the people cheaper and more efficient service.

Chairman Bingham laid before the committee a letter from Dr. Green and ten, Eckert of the Western Union, in which they say the executive committee has instructed them to invite the committee to visit the company's headquarters in New York and examine their general operations. The letter says: "We court the most thorough investigation, and are willing you should employ experts to go through our books, accounts and statements."

Amending the Interstate Act. WASHINGTON, March 18.—Mr. Cullom today introduced a bill to amend section 12 of the interstate commerce act so as to provide that the commission shall have authority to inquire into the management of the business of all common carriers, and shall keep itself informed as to the methods in which the same is conducted. Upon request of the commission the District Attorney to whom it may apply may commence, under direction of the Attorney-General, all necessary proceedings for the enforcement of the provisions of the law.

Millions for Defense. WASHINGTON, March 18.—The Appropriations Committee of the House today completed the Fortification Appropriation Bill, and directed Mr. Brewer to report it to the House. The bill makes a total appropriation of \$4,331,078, being \$3,977,350 less than the estimate, \$353,728 more than the last bill and \$599,678 more than the appropriation made at the first session of the last Congress. The bill carries an appropriation of \$250,000 for gun and mortar batteries at San Francisco and \$300,000 for an inquiry concerning the facilities offered for gun factories at the Rock Island and Benicia arsenals.

Wanamaker Asked to Explain. WASHINGTON, March 18.—In the House today Mr. Norton offered for reference a resolution reciting that it is reported that the Postmaster-General has been employing postoffice inspectors and special agents for the investigation of the claims of Republican appointees for appointments as postmasters, and paying for such services out of the public funds, contrary to law, and calling on the Postmaster-General for a statement.

A Volunteer Bounty Bill. WASHINGTON, March 18.—Mr. Gast of Illinois introduced a bill in the House today granting a bounty of \$50 to all soldiers and sailors of the late war who served in the volunteer service not less than 90 days, and were honorably discharged.

Taubee's Slayer Indicted. WASHINGTON, March 18.—The Grand Jury today reported an indictment against Kincaid for the murder of Taubee.

A Yosemite Valley Bill. WASHINGTON, March 18.—A bill was introduced in the House today setting apart the Yosemite Valley for a public park.

Some High-priced Horses. CHICAGO, March 18.—Among the best priced horses at the sale today were: Sir Wilkes to McMillan Bros. of Marshallfield, Wis., \$2400; Christine to the same, \$1600; Fidelity to the same, \$1025; Count Robert to the Twin Brothers stock farm, Cambridge, O., \$1200; Whim to J. S. Coley, Massillon, O., \$1100; Temple to C. M. Patton, Chicago, \$2500; Corbin to J. W. Browning, Indianapolis, \$1600.

Seeking His Liberty. Benoit Renault, convicted several months ago of shooting Sheriff Aguirre, while resisting arrest, and sentenced to 350 days in the County Jail, was brought before Judge McKinley yesterday, on a writ of habeas corpus, his counsel claiming that he could not be sentenced to more than three months in the County Jail for the offense with which he was charged and of which he was convicted. A partial hearing was given the matter, and it went over until this morning.

RAILROAD NOTES.

The Los Angeles and Pacific—Fast Time on the Southern Pacific.

The iron workers strike that has been in progress in San Francisco during the past week will end today. Night before last three cars containing 70 molders passed through this city on their way to San Francisco to go to work in the Union Iron Works. The Southern Pacific Company has rushed them through from the East on fast time. The railroad people had to be very careful for the reason that the strikers in San Francisco have been expecting something of the kind and have had committees of union men stationed at various points on the watch. The train was rushed through all towns and cities where there was a chance for a committee to get hold of the men, and when the train reached this city night before last the men were kept locked in their cars until the engines could be changed. The train was then rushed on through and the train officials escaped all trouble until they reached Lathrop, a few hours' ride this side of San Francisco. A committee of strikers met the train at this point, and had it not been for the watchfulness of the railroad people the committee would have reached the molders, and there might have been serious trouble. The train reached San Francisco last night, and the men will probably go to work today.

There were various rumors flying around yesterday regarding the disposition of the Los Angeles and Pacific Railroad stock. The coaches have been sent to San Francisco and turned over to the creditors, and there was one story yesterday to the effect that the rails are to be turned over to the Cross road. The most probable rumor, however, is to the effect that Mr. Cross and his company will take the road as it now stands, and build a line between the Downey-avenue bridge and the Los Angeles and Pacific depot at the Sisters' Hospital. If this is done the Pasadena people will have direct communication with Santa Monica. The people along the line of the Los Angeles and Pacific are very anxious to have the road opened once more, and will give the road all the assistance in their power.

The general opinion among railroad men in this city is that the Transcontinental Association will go to pieces in San Diego. The various roads represented are on the warpath, as near as can be learned, and if they do not settle their difficulties before the meeting adjourns, every fellow will be for himself in the future, and rate wars and all kinds of trouble will be the outcome.

Freight business is rapidly improving in this city. The Southern Pacific people are putting on extra freight trains every few days, and say business was never so good at this season of the year as at present. There were three crews put on last week, and the chances are that there will be several more this week.

The regular weekly Warner excursion arrived yesterday with the following passengers:

James Clay, Kansas City; A. B. Joslyn and family, Des Moines, Iowa; J. Beckwith and family, Kansas City; H. H. Maier, Helena, Wis.; Miss Belle Miller, Toronto, Canada; Mrs. E. V. Armstrong, A. Chandler-Jaques. The Pine-street Presbyterian Church was well filled last evening with friends of the contracting parties to witness the marriage of Fred Chandler and Miss Rachel Jaques. After the ceremony a number of those present repaired to the residence of the bride's parents, on Pacheco street, where an elegant supper had been prepared. The parlors were handsomely decorated, the display being very elaborate. The happy couple will leave for Coronado today. The groom is a brother of the superintendent of circulation of THE TIMES, and is himself connected with that branch of the paper, while the bride is decidedly popular among a large circle of friends and acquaintances.

POLITICAL TALK.

Some Republican Candidates for Governor.

[San Francisco Cor. Oakland Times.] Up to date the Republican aspirants for Waterman's shoes are not nearly so numerous as the Democratic. Mr. Waterman, of course, wants his feet to stay where they are, with a passion of wild desire. Although never a solitary Republican voice against the word Waterman without the speaker looking unwell, I have heard it asserted that the railroad is for him. If this be true the thing is settled, so far as the nomination goes, but to elect him would be a miracle beyond even the power of Four and Townsend streets. A man who, as Governor of a civilized State, could deliberately, and while cold sober, choose Marcus D. Boruck for his confidential secretary and chief political adviser, ought to live in Stockton, not Sacramento.

Col. H. H. Markham of Los Angeles, a man of ability and character, is a favorite hereabout. Congressman Vandever has hopes, but unhappily an impression is about that he is a crank, and a change is wanted.

Congressman Morrow is booked for Judge Sawyer's place should the latter resign. But if the Judge holds on, Morrow can get the nomination if he wishes to be Governor, notwithstanding the talk of railroad backing Waterman (which the railroad people can't surely be such fools as to do, no matter what they may say to please a foolish and abnormally persistent old man). I have said it on good authority that Morrow is the personal choice of Senator Stanford and Col. Fred Crocker. Morrow is a strong man, a very strong man. He has been elected to Congress three times from a Democratic district, a district which gave the Cleveland electors a majority of 1980. He beat ex-Judge Fernal by 600, and there was nothing against Fernal either. He made a fiery canvass, and had a clean record to back it, but Morrow's popularity was too much for him. Morrow.

But this is enough politics for one meal.

Augustus, aged 32, and Mary E. Cleveland, aged 22, city; Harry E. Rogers, aged 22, of Buffalo, and Rebecca E. Hodges, aged 21, of Santa Monica; W. A. Stewart, aged 35, and Anna J. Eichelberger, aged 23, city; John Hauser, aged 30, and Luella M. Barnett, aged 20, of Whittier.

The number of cranks, religious and otherwise, is evidently on the increase, for hardly a mail arrives that does not bring a mass of more or less idiotic printed matter in the form of circulars, exhortations, etc. The latest conglomeration is from a man calling himself "Lewis, the Light," a lot of sacrilegious doggerel, accompanied by a "proclamation." The mystery is where these people get the money to pay printing bills and postage.

The Los Angeles Deaf Mute Association is doing good work. Religious services are held every Sunday, when the exercises are conducted in the sign language, with an average attendance of from 15 to 20. Last Sunday one man came from Santa Ana to attend services and three from San Bernardino. Besides this, the association is looking after the material welfare of the members by assisting them to find employment at their trades, and in a number of cases have been successful.

CHAMBER OF COMMERCE.

The Permanent Exhibit Being Arranged—The Citrus Fair Surplus. Carpenters and decorators are busy at work in the Chamber of Commerce Hall arranging the permanent exhibit. The hall is beginning to take shape, and it is believed that the chamber will be ready for a grand opening next Saturday. Quite a number of the exhibits of fruit and decorations that were used at the citrus fair have been moved into the hall and are being put in place as rapidly as possible.

There is a move on foot by the Chamber of Commerce to secure the \$2000 now in the hands of the citrus fair committee. This sum was left over after all the expenses of the fair were paid, and the chamber believes that it should be turned over to them to help defray the expenses of the permanent exhibit. The citrus fair committee cannot see it in that light. It very properly thinks it should be salted down for the next fair. The money properly belongs to all the counties that helped to make the fair a success, and if it is turned over to the Los Angeles Chamber of Commerce, the other counties will have good cause for complaint.

The fair committee will meet next Saturday and will decide what disposition shall be made of the money.

The editors of the Los Angeles papers are angry because the Times referred to their city as "a Jay town." We apologize. We were disheartened, discouraged, if appointed our base-ball heroes had gone back on the record we assted them to make. We thought that the Los Angeles base-ball team had something to do with the defeat of the Oakland nine. We thought we were drawing it mild and that we were restraining our angry passions when we called Los Angeles "a Jay town." We take it all back. Los Angeles is a daisy.—(Oakland Times)

DISEASES OF THE HEAD.

Throat and Lungs, successfully treated by H. L. J. ROSE CO., M.D., M.C.P.S., by his Compound Oxygen and other medicinal Inhalations.

Probably no system of practice ever employed has been so universally successful as that introduced by Dr. J. L. ROSE CO. for the cure of Catarrh, Throat Diseases, Bronchitis, Asthma and Consumption.

Catarrh is often regarded by the patient as a cold in the head, and he often expresses his astonishment at his remarkable recovery to the fact that he has been cured of his disease. He is, however, free from one cold before he takes another, and he is in a condition of health that the cold always seems to settle in the head and throat.

At times many of the symptoms of catarrh seem to be about to wear off, but an other class of symptoms soon appear and he is obliged to use the system of recovery from the disease. It is a somewhat changed in its character and has extended to the throat and lungs, and he is in a condition of health that the cold always seems to settle in the head and throat.

Every case of catarrh is curable when properly treated. Patients, visitors and invalids should avail themselves of the opportunity of being cured before they return home.

Those who do not consult me in regard to their cases had better call at the office for an examination, but if impossible to visit the office, they may write to me for questions and circulars, both of which will be sent free of charge.
